Summary

Senior UI/UX Designer and Framer Developer with 8+ years of experience designing and building modern, user-friendly digital products and websites for startups and growing companies. Proven track record delivering 140+ projects as a Top Rated Plus freelancer, working with SaaS, fintech, healthtech, sustainability, and edutech teams across the US, Canada, UK, Singapore, and other markets.

Skilled in product design, dashboard and marketplace UX/UI, landing pages, and no-code website development in Framer, with additional experience in Webflow and Shopify. Focuses on clear information architecture, responsive layouts, and thoughtful motion to support business goals and improve usability. Comfortable collaborating with founders, agencies, and investors, translating requirements into structured design systems and development-ready components.
